

UnitedHealthcare HSA Choice Plus *Plan HDG*

With this HSA Choice Plus high-deductible health plan coverage, you have the option to open a Health Savings Account (HSA). An HSA is a financial account that you can use to accumulate tax-free funds to pay for qualified health care expenses, as defined by the Internal Revenue Service. The account acts like a regular checking account with a debit card and accrues interest. All money in the account is owned by you and is fully vested as soon as it is deposited. Funds can accumulate over time and the account is portable among employers. If you use the funds for qualified health care expenses, you will pay no taxes. If you use the money for other expenses, you will pay a tax and a penalty fee.

Under the HSA Choice Plus high-deductible medical plan, your annual deductible and out of pocket maximum includes both medical expenses and pharmacy expenses. All expenses are your responsibility until the deductible is reached. HSA Choice Plus plan gives you the freedom to see any Physician or other health care professional from our Network, including specialists, without a referral. With this plan, you will receive the highest level of benefits when you seek care from a network physician, facility or other health care professional. In addition, you do not have to worry about any claim forms or bills.

You also may choose to seek care outside the Network, without a referral. However, you should know that care received from a non-network physician, facility or other health care professional means a higher deductible and Copayment. In addition, if you choose to seek care outside the Network, UnitedHealthcare only pays a portion of those charges and it is your responsibility to pay the remainder. This amount you are required to pay, which could be significant, does not apply to the Out-of-Pocket Maximum. We recommend that you ask the non-network physician or health care professional about their billed charges *before you receive care*.

Some of the Important Benefits of Your Plan:

You have access to a Network of physicians, facilities and other health care professionals, including specialists, without designating a Primary Physician or obtaining a referral. Benefits are available for office visits and hospital care, as well as inpatient and outpatient surgery.

Care CoordinationSM services are available to help identify and prevent delays in care for those who might need specialized help.

Emergencies are covered anywhere in the world.

Pap smears are covered.
