Assurant Health

Staying power you can count on

An insurance plan is only as reliable as the company behind it. For health insurance you can depend on, insist on a track record of expertise, strength and commitment.

EXPERTISE

Long-term stability and success in any business takes expertise. Tracing its roots back to 1892, Assurant Health has been selling individual medical insurance longer than any of its competitors. And with more than one million customers nationwide, it has earned a solid reputation for health insurance know-how.

STRENGTH

A company's strength is most important when it's time to pay benefits. A.M. Best¹, the highly respected insurance rating source, consistently rates Time Insurance Company² A- (Excellent)—affirming its outstanding ability to meet claims-paying obligations.

COMMITMENT

Assurant Health specializes in you. While many health insurance companies focus on the large group market, Assurant Health's commitment is to individuals and families. This commitment makes it a leader and innovator in individual medical insurance—and the best choice for those who buy their own health insurance coverage.

Expertise, strength and commitment—together they mean staying power.

Quality Health Insurance at an Affordable Price

With health care costs rapidly increasing year after year, many people responsible for buying their own health insurance find that conventional plans with low deductibles and high premiums are impractical. But going without coverage is not an acceptable alternative.

The wise choice is an Assurant Health HSA plan, which protects against large medical bills, provides tax advantages and keeps premiums affordable.

An Assurant Health HSA plan consists of two components—a federally qualified, high deductible health insurance plan and a tax-sheltered Health Savings Account (HSA). It's the ideal way to protect yourself and your family from the massive medical bills that can accompany a serious accident or illness—and pay your routine health care expenses—all at a reasonable price.

Health Savings Accounts

A Health Savings Account (HSA) is a pre-tax fund you can use to pay medical expenses not paid by your high deductible health plan—including bills that go toward meeting your deductible and many other expenses listed in *IRS Publication 502*.

Pairing your qualified high deductible health plan with an HSA offers you the ability to pay routine health care expenses with pre-tax money and build a tax-sheltered safety fund for future medical expenses or retirement.

Conventional Insurance vs. High Deductible Plan with HSA

The money you save on premiums with a high deductible plan can be put into your tax-sheltered HSA to grow tax-free year after year. You own the HSA funds and choose how to spend them.

Conventional Plan Premium

High Deductible Plan Premium and HSA Contribution

The financial benefits of an HSA are clear:

- You pay no income tax on money you deposit in your HSA.
- You are not taxed on any interest or earnings credited to the account as long as any money you withdraw is used to pay for qualified medical expenses.
- Any money you don't spend rolls over year to year for use in paying future medical expenses or supplementing your retirement income.
- At age 65, you can withdraw money from your HSA for non-medical expenses without penalty, paying only standard income tax.

Funding your HSA is easy since you will be saving money on premiums by purchasing the high deductible health insurance plan. Simply use those savings to help build your HSA, then deduct the contributions from your taxable income.

Eligibility

Anybody with a qualified high deductible health plan as his or her only major medical coverage may open and contribute to a Health Savings Account. Total contributions cannot exceed the IRS yearly maximum or the health plan's deductible amount, whichever is less.

HSAs are permanent and portable, so regardless of your future employment situation, you can maintain your HSA.

With a high deductible health insurance plan, you pay less in premium than you would for a conventional plan with a lower deductible. Most people find that their net insurance cost (including deductible and coinsurance) is less with an HSA-qualified high deductible plan than with a conventional plan.

If you use your savings to make tax-deductible contributions to a Health Savings Account (HSA), you create a fund that grows tax-free from year to year.

Assurant Health's HSA Plans

Assurant Health offers two qualified high deductible health insurance plans and accompanying Health Savings Accounts.

OneDeductible HSA

With the OneDeductible HSA plan, you receive broad, high-quality health care coverage through a simplified plan that features a single, common deductible covering everyone on the plan.

All covered expenses, even prescriptions, are applied to the single deductible, so with the OneDeductible plan, you never need to keep track of separate deductibles for each family member.

The OneDeductible plan's **optional Maternity Benefit** pays 100% of covered services after you meet your maternity deductible—for any pregnancy that begins after the 9-month benefit waiting period. Maternity deductible options are \$1,000, \$2,500, \$5,000 and \$10,000.

Also available only with the OneDeductible plan, the **optional First-Dollar Preventive Services Benefit** provides \$250 per person for preventive services—before your deductible is met—once you have been insured for 12 months. Additional preventive services are covered subject to deductible and coinsurance up to the \$500 annual benefit maximum.

SaveRight HSASM

For the most affordable qualified high deductible health plan, look to the SaveRight HSA plan. SaveRight HSA's low premiums fit even the tightest budget, and your premium savings allow you to fund your tax-sheltered HSA.

HealthyDiscount

Both the OneDeductible HSA and SaveRight HSA plans offer you HealthyDiscount, which rewards you for maintaining your good health by providing 10% off your renewal rates.

Managing your HSA

After you select a qualified high deductible health plan from Assurant Health, your next step is to set up your Health Savings Account and decide how you wish to fund and manage it. It's simple and convenient to establish the account with Assurant Health. Assurant Health offers you two easy ways to manage your account.

HSA Fundamentals

With HSA Fundamentals, you deposit your HSA money in an interest-bearing account administered by Assurant Health. You can set up the account to automatically reimburse you for out-of-pocket costs every time a claim is paid, or you may leave your money to grow tax-free in the account until you request a release of funds. There is no administrative fee.

HSA Tools

If you want advanced account options such as the ability to invest in money market or mutual funds—and a higher degree of control over your account—HSA Tools is the right choice for you. HSA Tools offers a quick and easy way to modify and manage your account, learn more about investing options and plan for account deposits or disbursements—all online. HSA Tools also provides a VISA® debit card for convenient payment of qualified medical expenses.

UMB Bank, n.a. is the account custodian. VISA® is a registered trademark of VISA International Service Association.

Add SuiteSolutions® for Extra Protection

Though a high deductible health plan with an HSA is the smartest way to save money on premiums and finance your health care, sometimes the idea of a high deductible can be worrisome. For additional protection against bills associated with accidents and critical illnesses, add SuiteSolutions® to your Assurant Health HSA plan. Available through membership in Health Advocates Alliance, SuiteSolutions helps cover your out-of-pocket costs if you're injured or diagnosed with a critical illness.

For example, if you have a \$5,000 plan deductible, are injured and incur \$5,000 in bills, the Accident Medical Expense Benefit would reimburse you for all but \$100.

Two SuiteSolutions benefit levels are available.
